**Subject:** Proposed Claims for Examiner's Amendment for 09/857,218

Examiner Colin,

Please find enclosed a set of proposed Claims for the above identified application, in accordance with our discussion yesterday. Since our discussion largely focused on the fact that the prior art does not teach or suggest that the portable device stores plural generations of keys, we incorporated this language into each of the independent Claims - as instructed by our client. Further, Claims 22-39 are canceled.

I look forward to your review and subsequent incorporation of these claims into an Examiner's Amendment. If you have any other questions or counterproposals that you would like to discuss, please contact me ASAP.

Also please call me to confirm receipt of this message.

Thanks,  
Andy Harry

Andrew T. Harry
